

# Symposium sur les bovins laitiers

## « Temps » qu'à produire du lait

**Thursday 30 October 2008**  
**Universel Best Western Hotel,**  
**Drummondville**

In a world where change comes more and more rapidly, time becomes a resource that is increasingly difficult to manage.

That is why, under the theme "« Temps » qu'à produire du lait!", the Symposium sur les bovins laitiers 2008, this year chaired by Mario Séguin, expert-adviser in genetics at CIAQ, offers you a block of conferences aiming for better efficiency of work time, along with other conferences on genetics, animal health and current events in dairy production.

Don't miss this major event!
